

Charlie Moss

Game Developer

Portfolio:

LinkedIn:

Profile

Critical thinking, motivated and creative game developer with a wide array of skills for designing 2D and 3D games and software. Flexible in the use of various technologies such as Godot, Unity, the Office 365 suite and Git.

Education

Ulster University

Semester One

- CRE 132 – Fundamentals of Game Programming (77.1%): this module taught me the basics of a broad range of programming techniques.
- CRE 133 – Game Design and Theory (73%): this module taught me how to handle feedback and playtesting, as well as engagement and player psychology.
- CRE 134 – Game Graphics (88%): this module taught me significant amounts of 3D environment design and modelling, as well as 2D sprite design and animations.

Semester Two

- CRE 135 – 2D Games Creation (N/A)
- CRE 136 – Professional Game Development (N/A)

Southwest College

BTEC Level 3 National Extended Diploma in Information Technology (2023 – 2025): DDM

Christian Brothers Grammar School

Business Studies C*
Double Award Science BB
English Language A
English Literature B

Learning For Life and Work C*
Mathematics B
Religious Studies B
Spanish D

Skills

- Coding - Unity (C#), Godot (GDScript), Notepad++ (Python), Android Studio (JavaScript), HTML5
- 3D Modelling + Environment Design - Blender, ProBuilder
- 2D Sprite Design and Animation – Aseprite
- Documentation and Data Sorting - MS Access, MS Excel, MS Word, MS PowerPoint
- Voice Acting - Paid Freelance, Content Creation, Impressions
- Communication and Teamwork: game jam, semester 2 group project
- Adaptability: able to learn and switch between a variety of software

Work and Voluntary Experience

- Web Design Competition (2024) – came second representing my college designing a website in a day on a different campus.
- Website Creation for Client (2024) – created a website for a client to use for their non-profit organisation. (Omagh Men's Shed)
- Game Jam (2026) – participated in a team and created a full game in a short time frame.

Hobbies

- Video games
 - Roguelike
 - Turn-Based Strategy
 - Co-op
- Game Jams – prioritises unique game concepting and programming
- Environment design – using Blender to create worlds and architecture for fun
- Prototyping – making small games in a short time to test ideas
